Workshop format

During this five-day workshop, you'll dive into the Davis® methods in a group setting. With limited group size to ensure the highest quality of training, you'll explore the main Davis® Dyslexia procedures through clear explanations, engaging demonstrations, Q&A sessions, and hands-on individual and pair-work practice using our signature clay modeling approach.

By the end of the workshop, you'll have gained a solid understanding of how Davis works and why it's so effective. Equipped with this knowledge, you'll be ready to implement these transformative methods to support your student or loved one in thriving.

Our highly trained Davis Workshop Presenters have been successfully offering Davis Programs as Davis Facilitators for many years and have gone through further extensive training for the presentation of Davis workshops.
